#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 67-77, drawn to a method for making a biocompatible sensor containing a reflection hologram, including use of a mold.

Group II, claim(s) 78-84, drawn to a method for making a biocompatible sensor containing a reflection hologram, including use of an application atomization process.

Group III, claim(s) 85-83, drawn to a method for making a biocompatible sensor containing a reflection hologram, including application of a second crosslinkable and/or polymerizable material.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common feature within the claims, the crosslinkable and/or polymerizable fluid material comprising at least a molecular sensing moiety (for example an enzyme, or phenolic bromic acid) which can interact or react with an analyte of interest (for example glucose) to provide an optical signal (for example change in color or intensity or spectral shift) which is indicative of a change in one or more optical properties of the reflection hologram, is

generally disclosed in US 5,989,923 (of record). Please see Abs, 1:35-43, 2:43-3:30, 7:41-45.

3. A telephone call was not able to be made to request an oral election to the above restriction requirement because there is no attorney of record listed as of 2-27-2010. The previous attorney of record withdrew, with acceptance of withdrawal, as of 1-15-2010.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KIMBERLY A. STEWART whose telephone number is (571)270-7004. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joe Del Sole can be reached on (571)272-1130. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
